

*RCME Army Cadets, Lower Sackville, NS*

## The RCME Foundation Supports our Youth

- Science, Technology, Engineering and Mathematics (STEM) is at the core of the RCME mission
- RCME is uniquely positioned to share its STEM knowledge and experience with future generations
- STEM skills are critical to the success of our Youth and the future of Canada
- The Foundation will establish a **Scholarship** for selected RCME Army Cadets who have chosen to pursue a STEM related, post-secondary program

• Science  
• Technology  
• Engineering  
• Mathematics

## RCME Corps

- The Royal Canadian Electrical and Mechanical Engineers were formed in May 1944 during World War II
- RCME engineers and soldier-technicians apply their innovative and extensive technical skills to maintain and repair complex military equipment

## RCME Foundation

- The RCME Heritage and Museum Foundation is a registered, charitable, not-for-profit organization
- Our Mission is to preserve and perpetuate the RCME Corps' rich legacy and to educate the Canadian public

## Every Year our Heritage Will Slip Away

Unless we Preserve it to Ensure it is not Lost Forever

- Our heroes and their stories are largely forgotten
- Their medals are misplaced and lost
- Our artifacts degrade beyond repair
- Future generations become less aware of our history
- The heroes of our storied past deserve to be remembered
- Ultimately our heritage could be lost forever

## Bringing our Heritage to Life and Inspiring Future Generations

### Our Museum's Future is Digital Online

*"In a connected age, when everything is enmeshed with the constantly expanding web, the digital is becoming an inescapable essential of the museum"* Edwin Heathcote, designer, architect, writer, *Financial Times*

- Preserving RCCEM heritage requires the use of modern digital tools
- Going online will make our entire Museum available to anyone, anywhere, anytime
- We must Curate and Digitize our many thousands of archives, artifacts, photos and videos at our School and elsewhere

The RCCEM Museum, Kingston, Ontario

## Our Priority Digital Museum Projects

- Our museum needs a **Website** to allow online discovery of the Kingston Museum, access to our heritage at the School and enjoy the projects underway
- The **Book of Remembrance** will honour more than 350 RCCEM soldiers who died in the line of duty during WWII, Korea, and on all Peacekeeping and Peace Support Operations since
- The **Stories of our Soldier-Technicians** will consist of a series of online documentaries chronicling heroic and memorable events in the history of RCCEM
- **Honours Decorations and Medals** will provide a searchable database to find information on those who were recognized for their valour and service
